Hard to believe alkeit you have been gone 2
Years already, we still miss you the same as if you was here. Our hearts were sad to see you go but god had special plans for you to walk and rest with him in the eternal land. When you was here you worked hard everyday and played and had fun while you had time. Everyone will always remember your smilin face . But we all know you are in good hands in heaven, we all will see you one day again,when our time comes to depart this world. Peace and much love alket
