“ We played together as children. We were playing with fencing foils at Gertz department store in Jamaica NY when a clerk asked us who we were with. Arthur replied that he was with his aunt while looking at a woman draped in furs who way spending liberally. The clerk them backed off thinking the woman was the aunt Arthur mentioned. However, the aunt was me. We were close in age and lived together in my parents home for some time.

“ I was just informed of the passing of Dr. Kuhne. Art and I worked together for many years when he was the Coordinator of the Mental Hygiene Clinic at the St. Cloud VA Medical Center. Art was truly involved in the care of his clients. In particular, he was a crusader for improving the care and services available for veterans struggling with issues of Post Traumatic Stress Disorder. He was a kind, caring individual who would go out of his way to ensure the veterans entrusted to his care received the highest level of treatment for their issues.

“ To Richard, and Ann-Marie Kuhne, and to Rick and Cathy Cotter, and their respective families,

I am so sorry to hear of Arthur's passing. You will be in my thoughts and prayers. May God bless you at this difficult time.

I knew Arthur when he was the Coordinator of the Mental Hygiene Clinic at the St. Cloud VA Hospital in Minnesota. Arthur was a brilliant man, a very talented psychologist, diagnostician, and clinician. His specialty was treating patients with PTSD, primarily Vietnam veterans, but also WW11, and Korean War veterans, and ex-POWs. He was so dedicated, and hard-working, and really devoted his life to our country's veterans. How I remember the warmth and compassion he showed to those who were suffering! Arthur also did important research on PTSD, and ex-POW research while at the St. Cloud VA, and also at the Manchester VA in New Hampshire.

He also was a skillful administrator. His accomplishments are many, and will not be forgotten!

Arthur is remembered fondly by veterans, and also by staff from the St. Cloud VA Hospital. He improved the lives of so many veterans through his work!

His memory, and his accomplishments will always live on!

I worked with Art, and later our friendship continued for 32 years. I will miss him very much. Rest in Peace, Art, my dear friend!

Sharon Lee, Retired St. Cloud VA Social Worker
