“ *I met keiki in December. The elevator was open so I rode it up to the office. Keiki came out & was amazed to see me since the elevator was normally closed. She was kind & so sweet. She explained what I needed to know for dental services. She didn't rush & we talked about other things in life too. I feel so blessed to have met keiki. Condolences to you all.*

“ Dear Donald and Ahono:
The news today was such a shock to me and to the Touro University Dental Family. In essence it was the support and encouragement of Keiki and you who challenged us to create the finest Dental School possible. I remember the day we spent together in Butler and Pittsburgh talking of the future when Ahono would join Donald. I also recall viewing the entire office with Keiki as she was so proud of what was being achieved. May G-d bless you with the strength to overcome such a significant loss while keeping the family together looking forward to better times.
