“ i am saddened by the passing of your dad. . . i think back to my time at Magnetics and am so appreciative that i was lucky enough to work for your dad. . . when i first started there, he was quite scary - always walked with a determined stance and did not appear really friendly. i always spoke to him when he would come in the front door in hopes that one day, i would see a smile. i guess my persistence paid off because one day he asked me if i ever thought about working in sales - i hadn't but started to after that comment & he hired me as an inside sales correspondent. . . my relationship with your dad was the greatest professional relationship i ever had in my working career - he was my mentor and i learned many valuable lessons about people from him. i lost my own dad when i was young but your dad reminded me alot of him. my sypathies to your mom & entire family.
