“ So sorry to hear of Mrs. Thompson's passing. I had her for Metrology in 1983 and 1984, but failed out both times. I eventually went through the program again in 1988-1990 and graduated. Mrs. Thompson was a big help with all the struggles I had. She taught me dimensional analysis which helped immensely with memorizing formulas. She was an exceptional teacher with a good personality (some other teachers were real boring). I remember her telling the class one day about her children replaying the Wizard of Oz video over and over when they were growing up. I'm sure the family is feeling a great loss. May God grant the family peace and may Lynn's memory be eternal !###imported-begin##George Pawluk###imported-end##
