“ I can't believe it's already been 6 years. September 2nd is always one of the hardest days for me to get through. Grandma was always one of my only family members who ever stood up for me. My mom being one of the only others. It was always me, my mom and my sister Bekah who helped Grandma when she needed someone. I asked family to help her and visit her but no one ever really did unless it benefited them. It was always the four of us - me, my mom and my sister- there with her. My mom and sister and I were pretty much the only people she had when she went through chemotherapy. She was there on the phone with me when I was diagnosed with lupus and when I was at the hospital during a miscarriage. She knew so many things and never told anyone. The last thing she told me was never to cry because she wasn't going anywhere. I had a dream that I couldn't find her about a week before she made her journey from this life. Cherish those who stand up for you. Nothing will ever fill the empty space in my heart, but I know she will always be with me..even now.

“ *Grandma always had a way of lighting up the room. Whether it was her inappropriate jokes or the use of a flashlight. I will forever remember all of the times we spent together and will be forever grateful for the time she spent with my children.*
