ML

“ My deepest and most sincere condolences to Matt's family. Matt was one of the most engaging and humble employees I had the honor of managing in my career. His spirit was bright in so many ways: his willingness to tackle challenges, his eagerness to learn, and his selflessness as a team member stand out as an example to those around him.

“ Matt was a leader in our field. He was humble even though his knowledge was vast. I got to know him at Asco as both a mentor and as a friend. He will be missed as both. My prayers and sympathies are with you. Please reach out at any time as you are still part of the Asco family and always will be. God bless.

“ I have worked with Matt for years now. I am heartbroken to hear about his passing. He was very knowledgeable and someone I could always rely on in the field to do the job right. He didn't call for engineering support often, but when he did he had already tried all other options. I am so sorry for what all of you are going through. It is never easy losing someone. My thought and prayers are with your family during this time.

“ I am terribly sorry to hear of your loss. As a colleague I looked up to Matt as a mentor and a true professional. He was always happily willing to take on the role of the teacher and share his incredible knowledge of our profession. Over the past year I have grown closer to Matt and considered him a friend. I will miss him. My prayers are with you.
