“ I'm sadden to learn of Patrick's passing. Although, I only knew Patrick professionally at ITxM, he was always very kind and helpful. My sincere sympathy to Patrick's family. May your memories fill the void that has been left behind.

“ My deepest sympathy to Patrick's family. We graduated in the same class in Butler. When he started at ITxM in the IT department, we realized our Butler connection and talked occasionally when he was helping me with my computer or in the break room. He will be missed. May memories of him keep him close to you.
