“ *My sincere condolences to Paul's family. I am a driver with Meals On Wheels who visited with Paul on a weekly basis. I came to know and somewhat understand Paul over time. I looked forward to our brief visits. He had a depth that was not readily apparent to most, I'm sure. He liked his privacy. However, he responded to kindness with kindness. I wish I could have gotten to know him a little better. Eternal rest to you, Paul.*

“ *I had a special close bond with my brother Paul. He was loving, difficult at times, generous to me, & caring. We shared a lifetime of joy & sorrow supporting each other always. We had years of fun growing up on our family farm. I will truly miss you & see you again. Much love to you Paul, little sister Marie*

“ Paul was my cousin 5 years my senior I have a lot of fond memories of him the one that sticks out the most happened when I was somewhere around 7 or 8. Its was around Halloween my family had gone to visit Uncle Al & Aunt Flo when we arrived there was a Scarecrow sitting on the front porch. After the visit as we where leaving the scarecrow jumped up and scarred the sh*t out of my brother, sisters and me, while we were visiting Paul had slipped out and changed into the costume of the scarecrow and was waiting to scare us as we left. Paul had a mischievous sense of humor and I will miss it and Him.

“ Paul would go Hunting with us when i was growing up. He would bring his Black powder rifle to hunt rabbits and pheasants and it was the funnest time. We would kick out a rabbit and he would fire that rifle the smoke and then boom it was awesome to watch. My Dad and his friends ,Paul and My brother Ron and I would have the best days ever hunting because of Paul and that gun. Growing up we used to ride our bikes to his house to see what he had going on he always had cool thing going on. I have always said he had a great mechanical mind and and a heart of a great inventor. He will be missed as time passes may he rest in the heavens. God Bless you cuz

“ Paul was one of 5, the middle child ... some of my favorite memories when he was young was that he wanted to fly. We tried to help him launch off the chicken coop roof. Nothing succeeded, and he was never injured, although I'm not sure why. His mind never stopped working on new things to try. I always felt he was born in the wrong generation as he loved older things. Another memory - he loved muskets, built a cannon that shot golf balls with black powder across Dad's field, and even across the Allegheny River from our camp between Emlenton and Foxburg, hitting a train car on the other side of the river. Paul was unique, and I miss him dearly. He had a heart as big as his skinny body at times. Love and miss you always ... Big Sis, Peggy

“ To all of the werner family
May the Lord be with you and GOD bless.
Paul was one of the kindest and warmest persons I ever knew , at the bowling alley he never got excited. It was never the balls fault if he missed a spare just laugh it off and enjoy. May GOD the father and his son JESUS CHRIST be with you Paul. Your friend.
